Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-23 in part , drawn to compounds and pharmaceutical compositions wherein R1 is a non-heterocyclic group, R3 is a halogen classified in class 546, 514, subclass 114;.299.
- II. Claims 1-23 in part , drawn to compounds and pharmaceutical compositions wherein R1 is a non-hetero ring, R3 is an aryl, classified in class 546, 514, subclass 114; 299.
- III. Claims 1-23 in part , drawn to compounds and pharmaceutical compositions wherein R1 is a non-heteroring and R3 is a hetero aryl or a hetro group classified in various classes and subclasses . . A further election of a single disclosed species is required.
- IV. Claims 1-23 in part , drawn to compounds and pharmaceutical compositions wherein R1 and R3 are different combinations and are classified in various classes and subclasses.
- V. Claims 24-28 , drawn to methods of treating various diseases , classified in class 514 and various subclasses.

The inventions are distinct, each from the other because of the following reasons:

Art Unit: 1625

Inventions I- V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions I-IV are drawn to a different core with different R1-R3 variables.

When a preliminary search was done on the core it gave numerous iteration

BATCH **COMPLETE**

PROJECTED ITERATIONS: 3727 TO 5553

Indicating that their core is not applicants contribution over the prior art .

Thus restriction is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II-V, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr.Steele on 8/3/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 1625

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicants preserve their right to file a divisional on the cancelled non-elected subject matter , without prejudice in due course.

If applicant 's traverse on the grounds that the inventions are not patentably distinct, applicants should submit evidence or identify such evidence now of record showing the groups to be obvious variants or clearly admit on the record that this is the case. In either instance if the examiner finds one of the inventions unpatentable over the prior art , the evidence or admission may be used in a rejection under 35 USC 103 of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rita J. Desai whose telephone number is 571-272-0684. The examiner can normally be reached on Monday - Friday, 9:30 am to 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cecilia Tsang can be reached on 571-272-0562. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
